PROFILE SUMMARY

MERN Stack Developer skilled in MongoDB, Express.js, React, and Node.js, with a strong foundation in HTML, CSS, JavaScript, and Tailwind CSS. Hands-on experience developing responsive web applications, RESTful APIs, and dynamic user interfaces. Passionate about building efficient, scalable solutions and eager to contribute to real-world projects while growing in a collaborative development environment.

PROJECTS

Eleven21 E-commerce Website Self-based

Sep 2025 - oct 2025

Tech Skills - React, Tailwind CSS, Node.js, Express.js, MongoDB, Redux

- Built a fully responsive MERN e-commerce website with admin and user layouts, ensuring seamless experience across all devices.
- Integrated secure payment gateway and Redux for efficient state management and smooth checkout flow.
- Developed RESTful APIs for product, order, and user operations with authentication and validation.
- Added role-based access and admin dashboard to manage users, products, and transactions effectively.

Movie App project Self-based

Jun 2025 - Jun 2025

Tech Skills - React vite , Tailwind css, Node js and Express js

- Built a responsive Movie App using React (Vite) and Tailwind CSS, delivering a modern interface and smooth navigation.
 - Developed backend with Node.js and Express.js to handle APIs, routing, and data fetching efficiently.
 - Implemented RESTful APIs to manage movie details such as titles, genres, and ratings dynamically.
 - Ensured reliability and scalability by applying reusable components and error-handling mechanisms.
-
